California Ranch News

Heavy shipments of fat stock have moved out of the Imperial Valley this year. Thirty-two cars of spring lambs were sent recently in one train to Kansas City. Incoming shipments of feeder cattle are heavier than usual. The alfalfa fields are now in their prime, while grass in other regions is getting low.

In spite of cool spring weather at Brawley, shipments of cantaloupes were heavier up to May 15 than for several years. Four hundred and thirteen cars had been shipped to that date as compared to thirty-eight at the same time last year and fifty the year before. The total acreage, however, is considerably lower than last year's, being approximately 5,000.

C. L. Nellsen, Santa Maria county horticultural inspector reports 3,058 carloads of vegetables shipped from the Santa Maria Valley since January 1, as compared with 2,328 carloads on the same date last year. Most of the shipments were made up of carrots, cauliflower, lettuce, celery and cabbage.

The California Canning Company at Newcastle, Placer county, has contracted for 100 tons of Placer County Royal Ann cherries at 7½ cents per pound for first grade fruit, and most of the local Royal Anne crop will be be sold in this manner. The price is only one-half cent lower than the 1927 price, and is considered very favorable, in view of the low prices of cherries on the eastern auction markets last week.

The supreme court a few days ago refused to stay the order of the interstate commerce commission reducing the rates on deciduous fruits shipped East from California. The railroads contended that the lower rates should not take effect until the supreme court at its next term could pass on the validity of the commission's order. In refusing to stay the order of the interstate commerce commission in reducing the fruit rates, the supreme court allowed the present rate of $1.60 per 100 pounds, which has been in effect since last February 10th. The former rate was $1.73 per 100 pounds.

Out of 81,194 carloads of grapes shipped in the United States last year, California furnished 74,511. And in that total was California's so-called "juice grape" crop. An exhaustive study of the once popular "Bar Tenders' Guide" and the latest report of the State Department of Agriculture leads to the conclusion that mixed drinks, if such there be, depend to a surprising degree on California. Where, for instance, would the most ingenious mixologist be without lemons? California provided every carload of lemons shipped in the nation last year. Count 'em, gentlemen; there were 12,871. California also shipped 74,817 carloads of oranges, or 70 per cent of the American total.

A notice has just been received from the superintendent of advanced registry of the Holstein-Friesian Association of America, that another California state record has been officially accredited to a Holstein cow in the herd of the Los Angeles County Farm. Pearl Burke Kalmuck Segis, at the age of 6 years and 4 months, is the new state record-holder, with a production in 305 days, Class B, of 19,433.6 pounds of milk. The figure displaces the record previously held by a cow in the herd of the Napa State Hospital. Pearl's production of butter fat amounted to 618.14 pounds (equivalent to 771.54 pounds of butter), which is only thirteen pounds below the state record for fat production in this class, now held by Revilla of Millbrae. During the test, the county farm animal carried a calf for 202 days.

One thousand farmers and their families are expected to gather at Redlands on June 9 for the annual picnic of the San Bernardino County Farmers' Bureau at Sylvan Park. A program of sports and short talks is being arranged.

Dairy prducts used in California during 1927 had a value of more than $10,800,000. That is, the producer, manufacturer and distributor secured a $10,8000,000 new market, in addition to whatever gain came from increase in state population.

Golden State
News of Interest to All

In sepulchral silence five of the Folsom Prison rioters a few days ago heard a verdict of guilty of murder in the first degree pronounced upon them—a verdict without recommendation which meant that they must hang. The men were being tried, in this instance, for the murder of George "Red" Baker, a prisoner-trusty, last Thanksgiving day.

Following a state report showing that at least 583 Indian families are attempting to live on annual incomes of less than $1,000 each, Governor C. C. Young a few days ago appointed a committee of five cabinet directors to make a thorough investigation of California Indian conditions.

"Top heavy state departments with ornamental employes" were last week directed by Governor Young to cut down their staffs before the next budget is prepared. "A careful survey should be made by each departmental director to eliminate any positions which have outlived their usefulness," said the Governor.

The Southern Pacific Company will bridge Carquinez straits. Definite decision to erect a huge steel span replacing the present train ferry from Port Costa to Benecia, as made by the board of directors in New York last week, according to word received. The bridge, costing several million dollars, will cut many minutes from the running time of the principal Southern Pacific trains.

No wonder women always have the last word—they live longer than men. The state department of public health announced recently that the 1927 death rate among California mates was fifteen per thousand as compared with only twelve per thousand among females. "It stated further that a baby boy in California has a life expectation of only 51.49 years as against an expectation of 56.21 years for the average baby girl. And during the past year there were 10,695 more deaths among men and boys than there were among women and girls.

California's estimated daily average crude oil production increased 4,800 barrels during the week ended May 26, figures released by the American Petroleum Institute show. The total estimated daily average crude oil production for the week of the report was 636,800 barrels as compared with 632,000 barrels for the week ended May 10.

Clarence S. Morrill, superintendent of the state bureau of criminal identification, will head the California peace officers going to Houston to "spot" bunco men and pickpockets attracted there by the Democratic convention. Houston has asked assistance from all parts of the country.

Piling up a tremendous fund of nearly $14,000,000 to carry on the state's gigantic road building program, California's 3-cent gasoline tax set a new high peak for earnings during the six-month period just completed, it was disclosed last week in the semi-annual apportionment statement of State Controller Ray L. Riley. Gross receipts from the original 2-cent tax jumped $1,083,153.48 over the corresponding period a year ago, Riley declared, or a gain of 12 per cent. The collections, furthermore, were largely for the winter months and period of light travel, Riley pointed out, and the coming six months are expected to show another tremendous gain.

California has had 149 forest fires so far this summer, and of those, all but eight have been man-caused. This is according to a compilation announced last week by State Forester M. B. Pratt. Of thirty-one fires in the national forests, egiht were caused by lightning. All of the 112 fires in state-patrolled areas were man-caused. The fire situation this year is reported by Pratt as being markedly more serious than at a corresponding date last year.

A large increase in criminal and civil cases handled by the California courts and a decrease in domestic relations cases were reported last week by Grant Taylor, secretary of the California Judicial Council. Comparative figures for 1926 and 1927, respectively, follow: Civil cases, 38,856, 42,665; criminal cases, 6,057, 7,188; domestic relations cases, 8,696, 7,913. The Judiciary Council is seeking to speed up court disposal of increasing dockets.

Prohibition agents doing open patrol work on highways will be placed in uniforms within a few weeks, according to a report from Washington. Commissioner Doran said the uniforms would include caps and badges. The purpose is to make the agents easy to identify as officers and to surb a tendency of automobilists to open fire when they are stopped in the belief that they were being held up by highway men.

LARGE CLASS TO GRADUATE FROM LOCAL GRAMMAR SCHOOL THURSDAY JUNE 14

Campbell Union Grammar School will hold its annual graduation at the school auditorium next Thursday evening June 14th. There are thirty-four taking final examinations this week and the exact number to graduate is not known at this time.

The program to be given is as follows:

March ..... C. U. G. S. Orchestra
Invocation ..... Rev. W. C. Robins
Song, "Night in June" ..... Offenbach
"Neopolitan Nights ..... Kerr-Zamecnick
Girls Chorus
Adress ..... R. B. Leland, Principal San Jose High
Commencement Song ..... Murray
Class
Presentation of Diplomas ..... I. R. Abbott
Presentation of Class Gift ..... Billy Hall
Acceptance ..... Julius Costello
Benediction ..... Rev. W. C. Robins

The program to be given is as follows.

CLUB COMMITTEES APPOINTED BY PRES.

The J. C. Ainsley gardens and home were opened Monday to the members of the Country Woman's Club for their annual picnic.

Tables were spread under the trees on the lawn and the hostess served coffee, tea and punch as adjuncts to the quantities of eats brought by the members.

The business meeting was opened by Mrs. Carboni who, after the routine busines,s surrendered the gavel to Mrs. D. H. Cramer, the new president.

Suggestions for the coming year's program were discussed and Mrs. Cramer announced her standing committees.

Program: Mrs. J. D. Blaine, Mrs. C. H. Whitman, Mrs. W. I. Merrill, assistants: Mrs. G. S. Robson, Mrs. H. C. Smith.

Membership: Mrs. Mary Lanphear, Mrs. R. G. Archibald, Mrs. M. E. Purmort.

House: Mrs. R. H. Hyde, Mrs. A. W. Johnson.

Library: Mrs. E. J. Price, Mrs. Ellen R. Smith, Mrs. Lillie F. Shaw.

Old Building: Mrs. W. H. Stray Mrs. Marshall Ross.

Flag: Mrs. F. V. Perrott.

Reception: Mrs. H. M. Shadle, Mrs. G. S. Robson, Mrs. W. I. Grattan.

Yard: Mrs. C. W. Sutter, Mrs. L. S. Miller.

Announcement that the building debt was reduced to $100 was a pleasant afternoon and adjourn- received with applause.

Music and conversation filled ment was made until next fall.

A shipment of twelve dozen citrus trees, comprising lemons and seedling and navel oranges, started early in May from the R. M. Teague Nursery of San Dimas to the Madeira Islands, northwest of Africa. All of the trees were boxed, the roots being packed in moss. The same concern recently made shipments of citrus trees to Brazil, and to Spain.

Cotton production in the Palo Verde Valley is expected to reach a total of 16,000 bales, exceeding last year's crop by 3,500 bales. More than 23,000 acres have been planted, most of it to the Acala variety. Additions to the usual cotton acreage are the 1000-acre plantation of the Colorado River Development Company and a 600-acre planting by the Palo Verde Land and Cattle Company.

That summer session in subtropical horticulture, to be held for the fifth consecutive year at Riverside, July 2 to August 11, is attracting wide interest, is evidenced by the large enrollment of students from other states and foreign countries. Prof. R. W. Hodgson, who has recently returned from citrus investigations in Florida and Texas, reports considerable interest in the session from former students and several new prospects. Applications have been received from both these states, as well as from Arizona, Ohio, Washington, Oregon, New York and Pennsylvania.

Chamber of Commerce, Monday.

GOPHER OFFICERS

The annual Gophers' picnic was held Saturday at the Los Gatos Memorial Park. Features of the program were talks by Professor Rogers of Montezuma Boys' School and musical numbers by several of the students.

After an enjoyable dinner spread on the park tables after which a short business session was held with President W. B. Denhart officiating. The officers elected for the year are: C. H. Whitman, president; L. Skillman of San Jose vice-president; Mrs. J. H. Eastman of San Jose, secretary. The members of the board of directors are Mesdames M. L. Waite and W. S. Carey of San Jose, M. E. Mumma and G. L. Parso of Campbell; Mr. W. B. Denhart of San Jose and Oscar Butts of Cupertino. Messrs. and Mesdames G. L. Parso and H. A. Butts will have charge of the picnic the first Saturday of June 1929 at Alum Rock. Midwinter picnic will be announced later.

PACKING CHERRIES

The California Canneries Company, local plant, opened Saturday with a good sized crew. They are packing cherries this year, which is the first time any of the firms here have packed cherries in any quantities. This will lengthen the season and add to the financial prosperity.

Mr. J. O. Dempsey has the supervision of the plant this year in place of Richard Woefell, who now has a business of his own.

MORE PRAISE TO NEFF

Again it has been brought to the attention of townspeople the remarkable beauty of John's garden and the contrast of that corner then and now. Time and again the writer has heard most complimentary remarks on the attractive little garden by the side of the road, which is a thing of beauty and joy forever. Mr. Neff, promoter and backer of this spot, is selling plants from it almost daily and he is kept busy getting new plants and varieties.

LAST CHICK

The last baby chicks for the spring season were shipped Tuesday. The local hatcheries have all closed after a much poorer season than for several years, owing to adverse conditions resulting from the embargo early in the year. All are anticipating much better conditions next year, and all the community shares in those hopes.

BORN—To Mr. and Mrs. T. H. Martin, at O'Connor Sanitarium Thursday, May 31, a son.

Chamber of Commerce, Monday.

LUMBER INDUSTRY MOVIES TO BE SHOWN "ALL KIWANIS NIGHT" BY HAL MORTON

WATER CONSERVAT'N MASS MEETING HERE JUNE 19

To the land owners of Campbell and vicinity:

Do the land owners of this valley wish to form a water conservation district under the provisions of the "Water Conservation act of 1927," which provides for saving our flood waters by spreading and sinking in the gravelly lands.

There is no bond issue. Money to pay for saving the flood waters is raised by a direct tax, and the directors of the district cannot levy more than 15 cents on each $100 of assessed value, land and improvements. All voting is done by land owners, each acre carrying one vote.

A mass meeting of land owners on April 26 authorized the appointment of a committee of 15 whose duty would be to find out if it is feasible to form a district under the law named above. This committee is asking the people of Campbell and vicinity to com eto a meeting on Tuesday evening, June 19 so that the matter may be talked over. The committee wishes to find out how the land owners of Campbell and vicinity feel about it.

The meeting will be held in the grammar school at 8 p. m. on June 19. If you are a land owner be sure to come.

Watre Conservation District Committee.

BRIDGE PARTY

Mrs. W. I. Merrill and Mrs. H. C. Smith entertained two groups of friends last week, Friday and Saturday, the first afternoon at the home of the latter and the second at home of Mrs. Merrill.

A color scheme of four pastel shades prevailed in the bowls of flowers, the bridge accessories and the luncheon tables.

Prizes were awarded the three high scores, the successful ones being Mrs. W. H. Stray, Mrs. W. T. Morton and Mrs. L. T. Lenox for the first day and Mrs Desmond Jenkins of San Jose, Mrs. C. B. Field and Mrs. Hattie Baugh for Saturday.

PLAY APPRECIATED

A very effective production of Tolstoy's drama, "Where Love Is God Is," was presented at the evening service of the Congregational Church by the young people.

The main character, that of the peasant cobbler, was remarkably well protrayed by Eugene Grattan The others, all of whom represented visitors to the Cobbler's little shop and home were very creditably represented by Bernard Robson, Cecil Cutting, Elsie Merrill, Dorothy Merriman and George Barnes.

The beautiful lesson of care and service to one's fellow beings was clearly and impressively taught.

Much of the success of the effort is due to T. A. Cutting, under whose direction it was developed. Those who were present hope that there may be more of these Bible truths illustrated in the same way.

The low eighthgrade students will give the graduating class and faculty a reception at the grammar school Tuesday evening. The program, a secret, is causing no little excitement among the pupils and promises to be a good one.

Chamber of Commerce Monday.

Merrill batting for Merrill was the order of things at Tuesday's meeting of the Kiwanis Club. Ed was slated for chairman, but during the hot weather he had lots of orders for wood and coal so could not make it and Walt substituted. Doc was sure some pinch hitter—he fined all the boys who went to Santa Cruz on the 3rd because they went — and then fined the rest of us because we didn't.

It was another closed meeting for the purpose of discussing business of the Club and for hearing reports of the Santa Cruz meeting. Tac Cutting was chief speaker and when he got through everybody was wondering what it was all about. The main business was apparently a waiter who tried to be funny by pitching butter at tuxedos and bouncing crockery off the backs of Kiwanians. Apparently the high light of the whole trip was the information Dean gave them on the way over about conditions in Russia and way points. No doubt Dean's subject was prompted by the short report, lamenting the fact that very little business was taken up. It seems that Ira, Ralph, Dusty, Doc Beall and Dean got lost in the comment.

The matter of our meetings during the summer was again discussed and it was definitely decided to hold them in the evening. Our first evening meeting will be Monday night, June 18, which is "All Kiwanis Night." Hal, at that time, will show the pictures of his recent trip and a program to be outlined by Kiwanis International will be observed. Evening meeting will then be in vogue on each Tuesday up to and including the second meeting in September.

The matter of the condition of roads in some sections of our community was brought up by George Burrows, with the suggestion that the Kiwanis Club, through their public affairs committee, co-operate with the Chamber of Commerce and school boards to the end that we might have some needed improvements made.

We are fortunate in having for our speaker next Tuesday, Mr. William Love of the Goodrich Rubber Company, who will talk on the manufacture of tires and rubber. Mr. Love is a mighty fine speaker and 100 per cent attendance is urged. Bring a guest if you can. Dusty Miller will be chairman.

OFFICERS INSTALLED AT P-T A SESSION

The P.-T. A. of the C. U. G. S. held its closing meeting for this school year Tuesday. Interesting reports of the work done during the past year were given, showing a live, active organization that has helped materially in the promotion of helpful relations between the homes and the school.

Forty-two dollars were realized from the recent card party and silver tea.

The new corps of officers was installed by Mrs. Hart of Mountain View, the sixth district president. They are:

President ..... Mrs. A. D. Rice
Vice-pres. .... Mrs. S. N. Dedegard
Rec.-secty ..... Mrs. Frank Lopez
Fin.-sec. .... Mrs. Victor Perriconi
Treasurer .....Mrs. Otto Kersgard
Parliamentarian ..Mrs. H. Rediker
Historian ..... Mrs. G. E. Farley
Auditor ..... Mrs. Allen

The annual summer colony has begun to arrive and is augmented daily with more arrivals. Many of these are people who come each season and many others are attracted by the effective advertising which the "old-timers" have done. With the closing of schools generally this week and next our town will soon be capacity full.

FIELD'S STORE

Special SATURDAY

2½ Royal Ann Cherries can 25c
Campbell's Soups, all brands 3 for 25c

"TAHSILDA" IS STAGED LOS GATOS ANNUAL PAGEANT

The first tickets sold for "Tahsilda" went to Charles Norris and Kathleen Norris, who have taken a box for both nights, June 22 and 23. Tickets are on sale at Comper and Burtner's Drug Store, according to Major H. S. Hostetter, who will have charge of the finances.

H. M. F. Pendlebury, who served as an officer with the British forces in India, and is now residing in Los Gatos, will act as technical director, to catch anything that might not be strictly East Indian.

The huge set, going up swiftly under the direction of L. A. Montgomery, will be the finest thing in the way of scenery and stage setting that has occured in any pageant here to date.

REHEARSALS

Rehearsals of speaking parts are going on, but the groups are not wanted until next week. No one except those taking part will be allowed on the grounds this year, according to the management. It is not fair to the actors, the town nor the director for citizens to pre-view the show and then not purchase tickets for the performances.

Most of the cast has been picked, although there are a few parts still unfilled. The cast follows:

THE CAST

Colonel John Andrews .. Gene Parker
Lieutenant Skene ..... Carl Balch
Mary Andrews, wife Col. Andrews ..... Ruth Hall
daor McDonald ..... Maj. H. B. Johnson
Capt. Martin Kendall .. Henry Crall
Abdul, Kahn, house servant ..... Hartwell Preston
Nancy Andrews, the Colonel's daughter ..... Mary Hall
Alec Andrews, the Colonel's son ..... M. Soltan
Gopal, Kendall's servant and friend ..... Alex Bache
Rafi, Haq, Aziz (Tribesmen) .... .. Gilbert, Becker and Carl Hubbell
Mohamoud Ali, (Bull with a beard) ..... Carl Gertridge
Dulip Singh, guard ..... J. Sohst
Gokal Singh, guard .... A. L. Erickson
Narayon, Tahsilda's messenger .... Byron Walton
Ghalib ..... Bill Coyle
Mullah ..... M. Solton
Tahsilda ..... Vivian Amet Johnson
Tribesmen ..... Roy Davenport, Kenneth Downing, Ray Boudreaux
Muezzin ..... Art Walton
Abdul Rahin, the snake charmer.... ..... Gus Goehner
Fazir Kahn, the serenader .... Charles Richards
Fruit Merchant ..... Andrew Postma
Chota, his daughter .... Marianne Wilson
Ali Partab, the executioner .... Fred Berryman
Vrigu Janihra, the singer .... Roberta Leitch

There will be rehearsals for Los Gatans who wish to take parts in the crowd scenes of the Pageant Tuesday night, according to Director Cyril.

Campbell Congregation Church
Rev. J. H. Bennett, Pastor

Next Sunday at 11 a.m. Children day. A specially prepared program to be given by the Sunday School, inculding a pantomine entitled, "Keys."

Sunday School children meet at 10:45 a. m.

At 7:30.—Baccalaureate sermon in Congregational Church. Preacher, Rev. J. H. Bennett. Subject: "The Incarnation of Influence." Special music by the church choir.

Next Wednesday at 7:30 a.m.—Mid-year church meeting and rally. Refreshments. All friends are asked to attend.

Members of the California Dairy Council concluded their quarterly conference in Sacramento last week with personal inspections of construction work on the farm and dairy-machinery building on the California State Fair Grounds and the new dairy laboratory in the Capitol extension building. The concluding addresses of the conference were given by Dr. C. U. Duckworth of the State Bureau of Dairy Control who discussed methods of conducting surprise milk-scoring contests, and by F. H. McCampbell, Federal-State supervisor of dairy products grading.

After three years of research, W. F. Gericke, plant physiologist at the University of California College of Agriculture announces that he has perfected a method of treating some varities of wheat and barley seeds with sufficient phosphorus to last them through a normal growth period in soil deficient in phosphorous, without further fertilization. He has also found that in cases where the bulk of the seed used is too small for treatment by this method, that considerable amounts of the important fertilizers, phosphorus, nitrogen and potassium can be stored in the young plants while they are in the cold frames.

After lighting his pipe, taking his pencil in hand and scribbling a few mysterious figures on a pad of paper, E. E. Kaufman, agricultural statistician of the state department of agriculture, can tell you that the average farmer's gross income in California is $852 per minute for every day in the year. Do it out yourself, Kaufman says. The total farm value of California agricultural products in 1927 was $450,720,000, exclusive of livestock products. Divide this figure by 52,560 minutes per year and you have the answer.

Memorandum books at Smiths.

Let Children Be Taught to Be Kind to Birds and Animals

BY JOHN GALSWORTHY

I should like to see all school children definitely taught to be kind to animals and birds. Apart from the benefit to creatures who have no say in their own fate, this would have a most civilizing effect. Proper treatment of criminals, drunkards, lunatics, prostitutes, of the the outcast and the helpless generally, is intimately interwoven with early education in the proper treatment of animals and birds. To a considerable extent, criminality arises from the injudicious and unkindly pressure of life. Children can hardly be taught how to deal with the unsatisfactory grown-up of their own species; but if taught, as they easily can be, to treat birds and animals well, they will grow up naturally with, a kindlier and more judicious attitude in all the practical affairs of life.

Hiram Sits Pretty

Senator Hiram W. Johnson was unable to force the Boulder Dam bill through the Senate because of some antequated rules, which govern this body. Johnson had the votes, but the Arizona Senators were able to prevent a vote being taken by resorting to some expert fillibustering the last few hours of the season. However, Johnson was skilful enough parliamentarian to keep his bill under the head of unfinished business for next fall. So when Congress convenes in December the Johnson-Swing bill will be the first to be voted upon. Hence, unless something happens between now and then, Johnson has his fight as good as won. In the meantime his political enemies will have no good talking point when Hiram comes up for re-election this year. The issue will be, if California wants the Boulder dam, then Johnson is the man to send to the Senate.

Our New Income Tax

Congress didn't do much for the common man when it passed the new income tax law last month. The fellows with big money bags came in for the principal tax reductions this year. The corporations fared quite generously. People who drive automobiles received a little handout and also theater-goers. No more taxes on theater tickets, which is pleasant, and when you go to buy your next automoblie you will find it will cost you 3 per cent less. A car that sold for $1500 will now be yours for $1455. The manufacturers promised Congress before it passed the new law on to the President that they would not absorb this profit, but would pass it on to the consumer, which was fair enough, and this has been done according to advertisements, which you will see in the papers. The great war was finished ten years ago and we are still feeling the affects of it in our pocketbooks. And we probably will for several years more. Wars cost the people enormous fortunes, and the burdens fall as heavily on the common man as anybody. By and by the people, when they are sufficiently civilized, will find other methods, less costly and destructive, of settling their quarrels.

If Babe Ruth continues to bust the boards off the outfield fences Bob Hanley will be compelled to purchase a new adding machine.

The Traveler and His Money

THE one certain way to get the best of pickpockets and other gentry of the same kidney is to avoid carrying large sums of cash. Travelers starting upon long journeys can do themselves a great service by using Travelers' Checks and Letters of Credit. They are far safer than actual cash and are readily cashable anywhere in the civilized world. They are available at any office of the American Trust Company.

Picnic Dishes at Smith's

Mr. and Mrs. E. G. Ainsley spent the past week-end at Ben Lomond.

Ralph Gardner tried his luck at Knight's Ferry but owing to bad weather hooked but two black bass.

Mr. and Mrs. B. O. Curry went to San Diego last Friday by boat and are combining pleasure with business.

Members of the Pundita Circle and their families enjoyed their annual picnic Wednesday evening at Los Gatos Park.

Rev. and Mrs. W. C. Robins went to Berkeley Monday to spend the week. Mr. Robins is attending a ministrial conference and visiting relatives.

Mr. and Mrs. R. W. Smith and Mr. and Mrs. C. E. Hancock motored down from San Francisco and were guests of Mr. and Mrs. C. F. Rubell over the week end.

A group of pupils of Mrs. Emily Pannell Gard will appear in recital next Wednesday evening, June 13 at 8 o'clock in the Community Hall. The public is invited.

Mrs. Geo. R. Stray left for her home in the East Tuesday for a visit of several weeks, and George started for Vestal, near Porterville, to which he was recentiy transferred.

Cards from Mr. and Mrs. R. G. Archibald report a wonderful trip on May 28 they were traveling along Lake Superior having left Winnipeg and on their way to Montreal.

Mrs. H. S. Bean and children of Kensington, Md., (just out of Washington, D. C., arrived Saturday to spend several weeks with Grandpa and Grandma Bean on Williams Road.

Guy Shephard, John Duncan and Will Noething on their return from Tahoe brought photos to prove they had some good luck. Mr. and Mrs. C. B. Miracle came home for a few days to verify the boys' fish stories.

Think of Shadle's for cameras and developing.

AUGUST SWANSON

The sudden death of August Swenson Monday came as a real shock to his family and friends as he had been in apparently good health. He had just arrived home in the auto which he drove into the garage.

He was a native of Sweden, aged 68 years and 10 months and is survived by his bereaved wife, Stella, and daughter, Esther.

The sympathy of the community is extended the bereaved ones. Interment was at Oak Hill Wednesday afternoon from Hocking & Willams Parlors.

HUBERT PERAZZO

Friends of Mrs. Hubert Perazzo (nee Marie Fammatre) extend their sympathy in the death of her husband which occured very unexpectedly Tuesday following an emergency operation. Funeral services were held yesterday.

Mrs. Perazzo is a graduate of the Campbell High School, class of 1924. They have made their home in Union district since their marriage.

"The younger generation" may not give a whoop about things ordinarily, but 1928 isn't just an ordinary year. There's a whooping cough epidemic, for instance. The state department of public health announced a few days ago that 3,200 cases of whooping cough have been reported since January 1, indicating the disease will be more prevalent this year than at any time since 1925; when there were more than 10,000 cases.

With Roy J. Neilson, Sacramento Assemblyman, proposing to lead discussions in the next California Legislature on elimination of the automobile speed limit, Frank G. Snook, chief of the division of motor vehicles, said recently that he will fight openly and vigorously any effort to raise the limit by so much as one mile an hour. Revision upward would be, in his opinion, dangerous and unwise.

That next year will be one of exceeding importance to every Shriner in California was announced by Illustrious Potentate Philip A. Erbes of Islam Temple on his return from the recent Imperial Council of the order of Miami, Florida, where it was decided to hold the 1929 gathering at Los Angeles. So hospitably were the Pacific Coast delegations treated by the Floridians, he explained, that California's far-famed prestige as a host must be maintained in receiving and entertaining the thousands of fez-wearers from all parts of the United States who will assemble in the southern city next summer.

Think of Shadle's for prescriptions.

COUNTY CONSOLIDATED TALKS BUDGET AT CONCLAVE

Plans for the 9th annual Los Gatos pagenat, "Tahsilda," to be held on June 22 and 23, and the complicated details of the county advertising budget and the new state budget law were the chief matters of consideration at the monthly meeting of Santa Clara County Consolidated held at the Vendome Hotel Tuesday at luncheon .

President Wendell C. Thomas presided and in the absence of Miss Bernice Downing of Santa Clara, Russell Pettit acted as secretary. After the usual introductions of those present Thomas called on Miss Donna M. Winning, president of the Los Gatos chamber of commerce, to tell of the forthcoming plans for the annual pageant. She said that "excellent co-operation was being received from everyone," and that "they expected this year's pageant to be better than any of the previous elaborate outdoor productions." Henry Crall, assisted by Mrs. Sanborn Young, furnished the theme, story and dialogue of "Tahsilda," the East Indian pageant to be produced.

There is to be more color and action, or pageantry, in this year's production than formerly, Mrs. I. L. Colbath, secretary, pointed out. She also said that a very fine advance sale of tickets was taking place. Two hundred and fifty bankers have purchased a block of seats for the evening of June 23.

Supervisor A. L. Hubbard of San Jose told of the difficulty legal experts had experienced in showing the Superivsors how to conduct the tax budgets under the new State law which goes into effect this year. He said that Consolidated should be very careful in the expenditure of the county advertising fund until it was definitely determined just how much would be allowed in the fund by the new State law. He explained that every item on which money is to be expended after September 1 must be included in a budget to be presented to the board before July1.

Numerous Santa Clara fruits are to be placed in attractive baskets and given to the delegates to the Democratic National Convention at Houston, Texas, according to the announcement of J. W. Henderson, local representative of the Democratic State central committee. After considerable discussion it was voted that the recommendation of $250 of the county advertising fund be allowed by the Board of Supervisors to defray the expenses of an exhibit in the Hotel Rice, Houston. 1800 baskets of fruit, the contents of which are being donated by the leading canners and packers of the county, are to be placed in the rooms of the various delegates, according to Henderson. Several other sections of California are sending products to advertise their sections and it is expected that this county's participation will prove to be valuable publicity

Dr. W. I. Wilcox of Santa Clara and Russell Pettit of San Jose told of advance plans for the county exhibit at the State Fair at Sacramento, in September. A meeting of the committee is to be held this week to determine the theme of the exhibit and it is expected that the actual work of collecting the displays will be started at once as many other counties have already started activity on their displays.

The newly organized board of directors of the Saratoga chamber of commerce will include the 8 members of the civic council: Frederick J. Wessels of Saratoga, announced. He said that Dr. L. Mendelsohn had been elected president at the meeting held Monday evening.

The next meeting of the organization will be held at Los Gatos on July 10, President Thomas announced .

Those present at the meeting were: A. L. Hubbard, Wendell C. Thomas, Will Ellis Miller. J. W. Henderson, Mark A. Thomas and Russell Pettit of San Jose; Mrs. I. L. Colbath and Miss Donna M. Winning of Los Gatos; Max J. Crow of Gilroy; Fredrick J. Wessels of Saratoga; Dr. W. I. Wilcox of Santa Clara; C. P. Cooley of Palo Alto; Harry C. Smith of Campbell; H. H. Wolford and G. W. Pederson of Sunnyvale; and Alex Allen of San Francisco.

"Joe" Stevenson Stops Wife Beater

Rev. "Joe" Stevenson, just back from the Presbyterian synod held last month at Tusa, Oklahoma, had a thrilling experience for a minister before the convention adjourned. The San Jose divine, who attended had the privilege of breaking up a wife-beating party in his hotel at Tulsa. When he went to his room one night he heard a woman scream in the next room. Her husband was at bat. When Dr. Stevenson rapped on the order the irate husband as much as told him to mind his own business for it was his party. The noise continued, and then Dr. Stevenson notified the office and the house detective was dispatched to the scene. This infuriated the husband still more, who then was in a mood to take it out on Stevenson.

The San Jose pastor was not easily frightened, who notified Mr. Husband tht he could go as far as he liked.

"If he had made a move to hit me I intended to get in the first punch," Dr. Stevenson said, " and then if he dropped, I had my mind made up to paddle him with one of his slippers. But I didn't get the chance. The man was arrested, taken to jail and I appeared against him and the judge fined him $25.

"In all my life I never saw a more profane man or a meaner man.' Stevenson is a deal over six feet and he is built accordingly, That wife beater little knows how near he escaped from a licking himself.

Dr. Stevenson said 900 delegates attended the synod, which will meet next year at St. Paul.

Tulsa is a prosperous oil city, and hey spend fortunes on their churches Their Methodist Church cost a million dollars.

State Has Control Of Donner Monument

A press dispatch from Sacramento announcing that the State had taken over the control of the Donner monument on Donner Lake refers to the Donner party as a gold rush caravan. This pioneer party started from Illinois in 1846 two years before gold was discovered in Califirnia.

It further states that the marker a bronze tablet showing names of all the members of this party is part of the monument 22 feet high showing the snow line of that year. The marker bearing the names of the party is attached to a giant stone that once served as the north wall of he hastily built Murphy cabin. This cabin was the scene of much suffering, the remains of some of the unfortunates were burried under the floor of this cabin which was then burned by order of General Kearney in June 1847.

WRIGHTS, Santa Cruz Mountains, May 30.—Since the water company has placed restrictions on all their land holdings in this vicinity, the area has about developed into a game preserve. Deer have become so tame that they walk right by Dam Tender Benson. He states that a few days ago, a large buck came up behind him and stood within three or four feet away. There are a large number of coons along the creeks.

More than 100 fresh grape shippers were present at a meeting held at Fresno when problems peculiar to the industry were discussed. Donald D. Conn of the California Vineyardists' Association declared that the raisin problem could be solved if 20,000 additional cars of fresh grapes were marketed. This could be done, he claimed, through a program of advertising. Receivers in Chicago, as an instance, state there is only a 50 per cent distribution of California grapes in that city, Conn said. "If we could increase the return by one cent a pound on our grapes and tree fruits," he said, "we would add $25,000,000 to the purchasing power of the state."

The Market News Service of the department of agriculture at Washington reports that cantaloupe supplies are moderate in nearly all western markets, but demand in only fair and price declines of 50 cents to $1 occurred near the end of May. Most supplies are from the Imperial Valley, where a slightly downward trend of prices appears at shipping points. The shipping movement from that section gained rapidly with about double the number of carlots weekly compared with a year ago.

Back of your Telephone

TELEPHONE service is essentially a community enterprise backed by national experience.

Almost every community on the Pacific Coast has at least one telephone exchange. And each exchange has its staff of home town folks—men and women who are your neighbors, who attend the same clubs and social gatherings, patronize the same stores and daily assume their responsibilities as interested citizens of the place where they live and serve.

Back of your telephone too is the cumulative experience of half a century of research and development—continuous and concentrated effort to improve the telephone art. Thus from the Bell Laboratories and all of the twenty-four operating companies of the Bell System, telephone service in every community benefits by new inventions and the discovery of better ways to do things—all making for the highest standards in telephony now known.

Rare Old Lamps Shown by P. G. & E.

The Pacific Gas and Electric Company, through the efforts of Mr. John D. Kuster, division manager of the company, has procured for display in the San Jose office for four days commencing Tuesday, June 5, the interesting and historical museum of lighting, "The Evolution of Light."

According to Mr. Kuster, this display is a veritable museum of lighting, consisting of 26 authentic lighting pieces dating from the crude saucer lamp, used in 600 B. C., on through the middle ages to today.

An invitation is extended to the public to visit the office during the display. Special invitations have been directed to school teachers and students because of the established historical value in all periods of history, science and literautre.

There are lamps of every description and design. Lamps from the early Bible days, burning oil derived from olives and nuts; the Venetian lamp of the year 1400; the German lamp of the year 1500; the Betty lamp, a grease burning lamp first brought to America by the Pilgrims. There are lamps of all sizes, made of pottery of bronze of pewter of brass of glass and on through the years to electricity and Edison's first lamp made with a bamboo filament.

The lamps are historically correct, there having been over seven years spent in research in order that the museum might be authentically presented.

FOR RENT—Pasture, $3 per month. Geo. E. Hyde, Campbell, Calif.

Union District Wants Another Gravel Road

Attorney Niles E. Wretman of San Jose, on behalf of a number of property owners in the Union district, will ask the Supervisors to lay out a new gravel road in the Union district. The road is to start on the Los Gatos road at the meeting of the Arnerich and Parker ranches, and then dun east paralleling the Almaden road to the Francis ranch. The road also cuts through the grounds of Todd Silker, Kapp sisters, Howes and other places. The new road will open up territory for new building sites and will run about 2 miles. The property owners have agreed to donate the right of way to the county.

MOST POPULAR DISH? IT'S HAM AND EGGS

Ham and eggs still leads as America's most popular breadfast dish, according to Paul Reiss, supervising chef for Southern Pacific's dining car and commissary department.

Travelers on the company's trains and ferry boats during 1927 consumed no less than 384, 750 platters of this premier delicacy.

"Fine ham," Reiss said, "is always fine ham; but an egg that was fine two weeks ago has become too much of a veteran for dinner car needs. In keeping with the company's reputation for speedy transportation, the dining car egg must be scheduled to reach the consumer not more than 24 hours after the hen has performed her duty.

NEW RATES MAKE ELECTRIC COOKING VERY ECONOMICAL

And then let the electric range do all the cooking

Every woman loves to cook—when the monotony of cooking is gone.

That is what the electric range does. It eliminates cooking monotony. Its harmonious white porcelain enamel makes kitchens attractive. Its perfect baking wins appetites. And its automatic time and temperature controls do the cooking while you're shopping or at the movies.

The oven of the new electric range heats up to 400 degrees in 9 to 11 minutes—as fast as one can mix biscuits. The open coil cooking elements are now made smaller to fit your pans. Heat that was formerly wasted goes to work. The result is, food cooks faster — less electricity is used.

See the new electric ranges today. Ask about our special low terms.

WHEN PROMOTERS USE "CHARITY" TO DECOY TRUSTFUL CONTRIBUTORS

Investigations of Various Schemes for Defrauding Public Out of Money Disclosed by Bankers Association—Many Kinds of Fake Industrial Promotions Used as Bait.

By W. R. MOREHOUSE
Public Relations Commission, American Bankers Association

MILLIONS of dollars raised under the disguise of charity go to line the pockets of promoters. Ticket sales on raffles are commonly used, and while the loss to any one person who buys a ticket is small the aggregate loss for the United States runs into millions of dollars. Usually the promoters of these schemes first make a contract with some charitable institution to conduct a campaign for funds on behalf of the institution. They are to run the campaign in the name of the institution and share the proceeds. The whole scheme is often one of deception. To those who have been led to believe that their contributions go practically 100 per cent to charity, the following case we investigated should prove illuminating.

W. R. MOREHOUSE

A number of promoters recently contracted with a charitable institution to put on a campaign to raise funds by the raffle of a new automobile. So far as the public could tell from the banners used in displaying the automobile, the full amount of the sale price of the tickets went to the institution. There was nothing to convey any other impression. Apparently it was open and above board and was being conducted by men who were contributing their time gratuitously.

For several days a new automobile, mounted on a truck, was driven up and down the streets, with banners telling about the drive for funds for the charitable institution. One day the truck would go by displaying one of the popular makes of automobiles. A few days later it would parade by displaying some other popular make. Periodically the truck would pull into the curb where it would park for several hours while the promoters pleaded with passers-by to take tickets on the raffle and thereby help a deserving charitable institution to meet its bills.

Thousands "Touched"

Thousands of people, touched by the appeal for help, bought tickets, the total sale running into the thousands of dollars. Contrary to the belief of the ticket buyers their contributions did not go 100 per cent to charity. Instead the charitable institution received but 26 cents on the dollar, the promoters getting 52 cents on the dollar as their net profit, or twice the amount received by charity, while the remainder of 22 cents on each dollar represented the amount charged against gross sales by the promoters as expenses.

In other words, every person who bought a 50 cent ticket for the sake of charity, contributed but 13 cents to charity and 37 cents to those promoting the scheme. Whether you give to charity or make an investment it will pay you to get the facts!

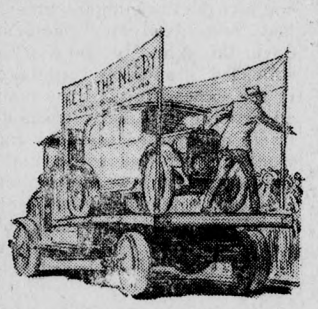
Unfortunately there is a general impression abroad that wildcat promotions are confined to oil, mining and new inventions. The truth is, many stock selling promotions are operated under the name of other industries.

False Claims

A certain group of promoters investigated offered for sale stock in a proposed woolen mill. In order to sell the stock they resorted to the use of misrepresentation and false claims. After renting space on the ground floor of an office building fronting on a busy street they began their campaign. Orally and by printed advertisements extravagant claims were made for the proposed corporation which were grossly false.

It was claimed that the promotion had the support of the Chamber of Commerce, but it did not have any such an endorsement. It was claimed that the corporation had a signed contract for the sale of millions of dollars worth of its products—orders enough to keep the mills running day and night for many years and accordingly insure its success, but all that it had was a valueless fake agreement.

It was claimed by two of the principal promoters that they had had many years of experience in the manufacture of woolens,—in fact had organized and financed a woolen mill which is the largest in the United States. The facts were these two promoters had not been connected with any mills for over twenty years and they had attempted at different times to promote mills, all of which had failed. One of the promoters represented that formerly he was president and general manager of one of the largest woolen mills in Canada. The fact was the mill referred to had gone into bankruptcy and he had been caretaker of the plant.



The "Charity" Drive

This story of misrepresentation can be duplicated in practically the whole industrial field, and because our industries are being exploited with intent to defraud, it behooves every investor to investigate carefully. He should consult his banker before drawing his savings out and losing them on some wildcat investment.

Advice to Householders

By a Detective Agency

Don't rely on what servants tell you about their references; nor upon written recommendations. Some of the cleverest thieves have excellent recommendations which they have stolen from trustworthy persons. Investigate servants thoroughly before employing them.

Don't employ a watchman until you have investigated and found him to have been trustworthy.

Don't rely on an outside watchman alone to protect your home. Unless your house is wired with an efficient burglar alarm system, keep him inside, where he cannot be so easily attacked. Night watchmen very often find a dog of great assistance. Check up watchman's clock daily whether he is working inside or outside house.

Keep Small Dog

Don't depend on an outside watchdog. A small dog in the house is far more valuable than a big one outside.

Don't let servants know much about your money or valuables.

Don't permit servants to become too well acquainted with tradespeople who come to your home, or whom you patronize.

Don't permit keys to lie around so that they can be taken out to be duplicated.

Don't fail to have property which is temporarily vacated, regularly inspected.

Don't fail to have locks, chains or bolts on all doors and windows. Always have a chain on doors to outside. Keep chains on at all times. If in doubt, only open door with chain on.

Outside Light Necessary

Don't fail to have an outside light that can be lit before door is opened.

Don't fail to be cautious.

Don't allow the electric, gas, or telephone employees to enter your house without the proper badge or credentials of identification being shown to you.

Don't fail to relieve servants of all pass keys in their possession immediately upon their leaving your employ.

Don't allow mail, daily papers or other matter to accumulate at your door while away from home for any number of days, as this is an indication that your home is not protected; have some friend or neighbor attend to same.

Look Out for Porch Climbers

Don't fail to take the necessary precautions to foil the "porch climber" or "dinner burglar." He usually gains access to the home during the dinner hour by ascending to the second floor by means of porch pillars, vines, wires, etc., or through the servants' quarters while the servants are otherwise engaged.

Don't neglect to have a watchman or a servant in upper hall to have view of rooms, to prevent intruders entering through windows during

BIDS WANTED

Bids will be received by the Trustees of the Campbell Union Grammar School, at the School House on June 13th, 1928 at 8:00 o'clock P. M. for the purchase of two Buss Bodies to be placed on Reo Chassis, specifications for which are on file in the office of the Principal at the school.

The Board reserve the right to reject any or all bids.

By order of the Board of Trustees of the Campbell Union Grammar School.

ORDER TO SHOW CAUSE IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SANTA CLARA.

In the Matter of the Application of CLANCY AND CULLEN, INC., a corporation, to change its corporate name.

Clancy and Cullen, Inc., a corporation having filed herein its verified application praying for an order of this Court authorizing it to change its corporate name to Clancy and Semas, Inc., and good cause appearing therefore,

It is ordered that Friday, the 29th day of June, 1928, at 10 o'clock A. M. of that day, or as soon thereafter as counsel can be heard, at the Court Room of said Court, in Department 3 thereof, in the Court House in the City of San Jose, County of Santa Clara, State of California is hereby set and fixed by me as the time and place for the hearing of said petition, when and where any or all persons interested in said matter are ordered to appear and show cause, if any they have, why said application should not be granted, and it is further ordered that a copy of this Order be printed in the Campbell Press, a newspaper of general circulation published in said County at least once a week for four consecutive weeks before the hearing of said petition.

P. F. GOSBEY,
Judge of said Superior Court.
ROBLEY E. MORGAN,
Attorney for Petitioner.
